Office Software.office.com. 32 bit and 64 bit.Q: How to make a Q3 pygame painting window start on top How can i make an Q3 window start on top of another Q3 window? I tried using win.setwindowmanagerflag(Qt.WM_WINDOW_STRICTRIGHT) but that just makes the Q3 window take up half of the screen instead of being on top of another Q3 window. I need it to be on top. Also I'm doing it in Python and would like the object to be a pygame object but even if I do win.make_current() The object becomes an OpenGL object instead of a pygame one. Here is what I have so far. import pygame from pygame.gl import * from pygame.gl import * from pygame.window import Window win = pygame.window.Window("Test", None, fullscreen=False) run = True while run: for event in pygame.event.get(): if event.type == pygame.QUIT: run = False w = win.make_current() id = w.make_id('q') gl = w.get_gl_context() gl.viewport(0, 0, 800, 600) gl.enable(GL_TEXTURE_2D) gl.595f342e71
