Under the protection of the king of the realm, the lands thrive and peace and order are restored to their former glory. I GOT WADED BY KING FOR YOUR FIRST TIME!!!! U THANKED ME :D I GOT WADED BY KING FOR YOUR FIRST TIME!!!! U THANKED ME :D Downloading this for my browser to see the countless bugs and issues with it first. Pros -The menus and graphics are nice and crisp. -I like the battle system -King is a decent role-player. -The staff members of this website are polite and respectful. -Unique fantasy world. Cons -The game crashes too much for it to be recommended -Choosing a party or anything is pointless since most of the party members die. -You either die or return to the menu or another town. -There is a boss-fight that is extremely unfair to anyone who hasn't played the game and watched youtube tutorials or any guides that are posted on this site. Battle System: -You press square to cast a spell of your choice. -Press X to use a melee weapon -Press Triangle to use an elemental attack -You can use combos by pressing the right analog stick in a direction. -Press L1 or R1 to swap between different attacks. -You cannot use a weapon or cast a spell on the same turn. -Certain enemies are weak against one of the above mentioned attacks. -No matter how strong an enemy is, use both spells and your melee weapon attack to kill it. -While it is easy to defeat a strong enemy with just spells, it may not defeat many weak ones. -You need to use melee to quickly defeat enemies. -Hit an enemy once and it will faint. -Hit an enemy twice and it will die. -You cannot use melee to damage an enemy who does not have a chance to attack. -You can use spells to cast either an attack or a spell (even if you have already cast it) -You can only cast one spell at a time and it will stop when you do not have any more MP. -You can use skills that are not related to spells to be cast (such as "Run" and "Speed Up"). -Certain skills have a chance to change something. Graphic: -The graphics are decent but bff6bb2d33
