Developers can now build useful real-time data applications or tools that expose CoinDesk's full suite of data to third-party applications and services. Our newest API releases provides an ideal means for applications to monitor how various topics are being discussed on the website, and to utilize this data in order to improve the quality of their user-experience. These updates are just the beginning. CoinDesk intends to continually improve its API and the data it provides. As always, the CoinDesk API is not for ordinary developers. Please see the guidelines for proper API usage. About CoinDesk Coin
