Installing a reflective sport bike at a cost of \$400 is a small price to pay to reduce the risk of being
involved in a car accident. Unfortunately, the law requires you to have comprehensive and collision
insurance to cover this special insurance coverage, but the premium for this coverage will be
something like \$400 per year. If you were instead to install a black bicycle light at the cost of \$50,
the same law requires that you purchase \$150 worth of insurance to comply with the law. The cost of
insurance might be of little consequence if you are not likely to have a car accident, but being
involved in a car accident means that you need to put up with the headache of car repairs and
replacement costs. Collision Insurance First, it is important to define collision insurance and
comprehensive insurance. Collision insurance covers the cost of your car when it is damaged from
an accident, while comprehensive insurance covers a wide range of other expenses such as towing a
vehicle away from a scene, as well as to the repairs of a vehicle. Collision insurance will cover the
cost of the repairs when your car is damaged in an accident, 6d1f23a050
