This is a wiki for the game "eNomikoa", a game build upon the classic battlelog technology, but by now fully integrated into the unity game engine. The game contains many different game modes, a scriptable to modify the behaviour of the battles, and the possibility for players to not only play against each other. Original author's website: Welcome to Megapixy! Our game is freeware and has no in-app purchases. It contains 12 levels, and it's a graphical remake of the original Megapixy. Main features: easy controls, well designed levels and updated graphics. Currently, a new level is available every day and an upcoming level is shown on the home page. Test your skills and try to play and win! Use your mouse to aim at the big target symbols and at the flying targets around. The faster you fire at them, the more points you get! Megapixy is a visually stunning game that requires you to test your reflexes and tactical skills. You will need to try and hone your timing to the absolute minimum - it will be up to you to find the right moment to release your fully charged ammo. Defeat all enemies, and in the end you might even win! To add your personal best score to the leaderboard and to unlock the next level, you'll have to beat the people around you. To keep playing a level after you've cleared it, tap on the level to open the menu and tap on "Continue". If you tap on "Play Again" you'll start the level over from the last enemy defeat. Main features: (1) A challenging game that you can play for hours, (2) Special features like a "Beat the clock" option and the "Endless Level" option. (3) A Leaderboard that shows your personal and total scores. (4) The option to re-play previously completed levels. (5) 12 impressive and fun levels with different environments and enemy species. Instructions for the Game: Megapixy is a game for both casual gamers and strategy players. To begin, click the "New Game" button on the main menu.
