
**Microbiologia Farmaceutica Carlone Pdf Download
[BEST]**

[Download](#)

How is that possible?: I see that some files (pdf, ppt, jpg, etc.) download correctly while the others just don't download. I tried a couple of days ago to download a pdf that was not working and it worked fine for a colleague, so I find it weird. I am sure that there is a solution but I could not manage to find it. Thanks in advance for your help. A: I needed to download an old legacy product and had the same problem, which I solved with the following user script: `/* * @name Download Document * @description Script that download docs to the downloads folder */ (function () { 'use strict'; // Global variables let _active; let _root; // First time init const docUrl = ''; // download all links with same md5 hash, keep one for next time let downloadUrl = (data) => { let links = document.querySelectorAll('a[href$=".pdf"], a[href$=".jpe?g"]'); let target = {}; for (let i = 0; i { let pdfs = rootElement.querySelectorAll('.pdf'); let xhr = new XMLHttpRequest(); xhr.open("GET", docUrl); xhr.setRequestHeader("Accept", "application/pdf"); xhr.responseType = 'blob'; let chunk = 2;`
