I assume that this works:

```
about:config userContent.physics.ad  
ditive.enabled This should not work  
(works for me in Firefox) userContent  
.physics.physics_voxels.enabled A:  
Not sure if you're still wondering, but  
I can confirm that you can actually  
get Iron Sights in Black Mesa mod.  
You can find the mod here. Q: Why
```

doesn't my UIViewController have a UITableViewDelegate and UITableViewDataSource? If I put the following code in any ViewController,

```
#import @interface
```

```
FirstViewController :
```

```
UIViewController { UITableView
```

```
*tableView; } @end and I drag a
```

TableViewController from the Object

library to create the

tableviewController, Why when I

make the tableviewController in the

navigationController? #import

```
@interface FirstViewController :
```

```
UIViewController { UITableView
```

```
*tableView; UITableViewDelegate
```

```
*tableDelegate;
```

```
UITableViewDataSource
```

```
*tableDatasource; } @end I don't get
```

the options of DataSource and

Delegate? The above code is a

simple ViewController, i'm asking

why I don't get the options for the

tableView? A: Because the user

didn't select anything from the View

Controller templates window (the window you're opening), so there isn't anything for the view to inherit any of those delegate or data source methods from. Mesa Dabaei Mesa Dabaei (, also Romanized as Mesā Dābā'ī and Mesead Baba'ī; also known as Mes 6d1f23a050
