
Rustler Free PORTABLE Download [Torrent]

`compile_with(path, version, args\[,env\[\],into\[""]\]. install_toolchain(version). rustup_binary(). version(). version_installed?(version) ...` and as far as I understand it does exactly what it's supposed to do. Now I would like to compile the toolbox for my own project. I created a new package from my build and imported it with `compile_with(mypackage,version,args\[\],env\[\],into\[""]\)`. Then I tried to install this package with `install_toolchain(version). rustup_binary(). version()`. However, there is still the problem that the package path does not exist, since it only contains the package name and not the path to it.
