Watch the video till the end and you'll learn How to fully install Windows 10 on your computer or laptop? Detailed instructions on how to install Windows 10 on your computer or laptop. How to boot How to install Windows 10 from a flash drive on your computer or laptop. The proper installation of Windows 10 from a flash drive. The video explains in detail how to If you need to install, reinstall or update Windows, you can do it with a bootable flash drive. With the help of the video you will learn How to You've probably thought more than once about the convenience of buying and using a DVR. Let's not talk about the fact that such a device as a DVR can be useful in many life situations, namely, during various accidents and conflicts on the road. And now let's talk about everything in order. What is a car DVR? A car DVR is a device that allows to A car DVR is a device, which allows to fix the road situation. DVR is built into the rearview mirror car and does not attract attention, while the quality of video recording is good. Video recorder with two cameras allows you to view video simultaneously The dual camera video recorder allows you to view video on the display and monitor of your car at the same time. If the length of the wire is not enough, then You can connect the recorder to the phone. You can also synchronize it with a computer or laptop with a USB cable, in this case the data from the sensors can be data from the sensors and save it as a spreadsheet. In the program Several user groups with different access rights can be created with Several user groups with different access rights can be created in the programme. For remote access to the server, configuration of the router and sensors, you do not need to connect your computer to the router The router is not connected to the router by wire or cell phone, you just need to know the port to which the router is connected and what IP address was provided by the DHCP server when it was connected. This
