9 Oct 2021 - Nissan DataScan II is a program designed for Nissan vehicles equipped with a gray 16-pin OBDII connector and using the Consult II protocol via K-LINE port. Nissan DataScan II is program intended for Nissan vehicles equipped with gray 16-pin OBDII connector and using Consult II protocol via K-LINE port. With the help of Nissan DataScan II you can read, erase error codes, identify them, display them graphically as well as display current vehicle parameters. Features Read error codes or erase them. Identifying or erasing error codes. Decoding and diagnostics of errors. Malfunctions may occur in different assemblies and units during the operation of the vehicle. The appearance of faults can be accompanied by various signs, such as: increased (increased) idling speed and / or changing it at idle; increase (decrease) of fuel consumption, increase (decrease) of engine power; not starting, floating, etc. This book contains the most common errors and how to fix them. Also you can download the programs necessary for ECU repair and diagnostics Book on repair and maintenance of cars Mitsubishi Lancer X, equipped with gasoline engines 4G18 (1.8 liters) and 4G93 (2.0 liters). This book covers models from 2007 and the restyling from 2008. The book will be useful to owners of Mitsubishi Lancer cars, specialists working in the sphere of car repair, as well as to everyone who wants to learn how to repair a car on their own. On the pages of this book you will find descriptions of the most interesting routes in cities and countries of the world. With the help of this guidebook you can make fascinating journeys to Australia and the Bahamas, Asia and Central America, along the Atlantic and Pacific Oceans, and visit the North and South Poles. You can choose the route of your trip by yourself following the descriptions in the book or by using our maps. Enjoy your leisure When choosing the route of the trip do not neglect other means of transportation. Do not take your car if it is not able to go on country or unpaved roads. On a motorcycle or bicycle can cover a much greater distance than by car. If you take the bus, you should see a map or take a map of the road you will be taking. This allows you to navigate and choose a more convenient route. If you come to an interesting city or place, then in the first place it is worth visiting the main attractions. As a rule, these attractions are easy to find yourself, because they have a recognizable appearance and are usually placed in the center of the city. That said, if you want to look at a particular monument, you may well have to take a guidebook or map with you, as it is likely that the map will not always show its exact location.

Nissan Datascan Ii Keygen

This video shows how to use Nissan DataScan II software to program new transponder keys. Most new Nissan vehicles ... Nissan DataScan II Nissan DataScan II - Nissan control software for key programming. Nissan DataScan II software for key programming. Nissan DataScan II for key programming.
