

Spss 17 License Key

I want to reinstall SPSS 17 on a new computer for one of the users. Could you help me generate a license key based on the authorization code. When I try to get a license key using the SPSS > Given license key command, I get the following error message: "The specified license key does not meet the requirements." What am I doing wrong? Thanks to. I got the key from this site: <http://www.services.spssstools.com/> I tried to reinstall SPSS using this key but it still won't activate. I am using Windows7 Professional. EDIT:

Download

Spss 17 License Key
