## Download Upgrade Matrix Prolink Hd Ethernet [BEST]

matrix j-link pro works out-of-the-box and can be configured as a wi-fi bridge or router with dhcp per default. the protocol supports ethernet bridging, makes lan connections and setups easy, as does the internal webserver. the usb ports on the front allow the use of usb-c. usb-c adaptor with the fully integrated universal usb-c adaptor an overall total of four usb 3.0 ports are available on the back panel of the matrix j-link pro. these provide 5 gbps transfers at up to 160w of power and 280w at up to 60v. a port for charging and power supply is available. one usb-c port can be used as a charging port, the next can be used as a usb power delivery port for delivering up to 160w to your devices. the third usb-c port can be used as a usb hub if you so desire. the built-in ethernet port is compatible with 802.11a/b/g/n and supports all common configurations such as wpa/wpa2, wps, wireless network management, dhcp/static ip addresses. the product also provides as clients dhcp services out-of-the-box, making configuration and setup simple. the matrix j-link pro also has a built-in ir receiver, which allows the user to control the matrix using windows 10 and/or third party apps like the leawoo on the app store. the j-link app is universal, offers interactive user interface, provides control over all types of media and allows for adding virtual source controls. the j-link pro also includes four full-size stereo audio inputs and two stereo line outs, to allow you to connect to any mixer or audio device. these both also support the analog matrix function which allows you to route the inputs and outputs of your audio devices such as a microphone or line-out from a digital audio recorder to your speakers. the matrix j-link pro also has a standard headphone output for connection to smartphones and tablets.

**Download Upgrade Matrix Prolink Hd Ethernet**

i/o expansion the matrix  
switch supports both pci

---

and avb networking standards for a wide variety of applications. built-in expansion connectors (gen 1 and gen 2) are provided in the back of the unit for easy installation of additional sources. the matrix switch also has built-in intel gbe. the optional i/o expansion kit allows the matrix switch to expand through

---

expansion headers for a full set of video signals and lanes. matrix switch compatibility the matrix switch series offers multi-channel capability and compatibility across various av output formats. the full version of the matrix switch supports 1st generation av outputs for hd-sdi, component and composite video, as well

---

as 5th generation  
1080p60, 4k and 3d  
video formats. 2nd  
generation hd outputs for  
both hd-sdi and  
composite video are also  
supported along with  
legacy dv connections.  
matrix switch advanced  
capabilities the matrix  
switch's advanced  
capabilities support a  
wide variety of input and  
output formats, including

---

super slim hdmi, hd-sdi, hd/sd composite video, component video, and sdi signals. it also supports both pci and avb networking standards, providing a full suite of networking support. power over ethernet (poe) capability the matrix switch is equipped with poe technology for remote access and control. the matrix switch

---

allows network ready control of devices with low power consumption that are beyond the reach of wiring to a power source. with the extron linkboard 3216 you are able to expand the connectivity of your system to an unlimited number of devices on ethernet with: power over ethernet, ip over ethernet, and network

---

video all using an active ethernet connection. fast internet connections are supported up to 100m, and each connection supports the ip over ethernet standard for vastly increased network flexibility. 5ec8ef588b
