In this project, Cardiak aka Cardiak is coming up on his sophomore release as a producer and beatmaker. Rather than building a personalized collection of sounds to manipulate and create, this project is a carefully crafted work of art. Cardiak aka Cardiak has worked on tracks with artists such as R. Kelly, Tyrese, and many more; however, he has always had a bit of a desire to create his own sounds. So, after working on R. Kelly's more life record, Cardiak aka Cardiak then took the time to work on a more personal collection, this record is as a result of his passion. Having worked with several artists over the years, Cardiak aka Cardiak was able to learn what is and is not successful on a record. This is a project that he has taken years to complete, and is looking forward to sharing. With a variety of stems, samples, and instrument loops, the Flatline Drum Kit Vol. 2 is full of quality sounds that includes a variety of 808s and hi-hats. While this collection is a bit on the more aggressive side, the variation of styles, sounds, and accents will give you the tools to create anything you can imagine.
