Looking for a specific software title or driver? You can use this section to find the downloads and drivers you need. Do you already own the product or are you looking to purchase one? From a single product to a complete driver download, you can find what you need here. Driving a vehicle equipped with these function is only as good as your awareness of your surroundings and your ability to react to various road and traffic conditions. In a car it is the driver's responsibility to maintain control of the vehicle at all times. Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings. To select the language that appears on the screen when you select one of the above recommended languages for enhanced operation, click on the desired language and then select "Set Preferred Language" from the "General" tab. The driver applies the settings to all printers in the system and is available in any application.

## Xprinter Xp-360b Driver 179
