If you have the Windows 8.1 then the concept is pretty easy and the same concept was adopted earlier for Windows 8 users. Note: The concept is same for Windows 8.1 and Windows 10 Using the concept, it is pretty easy to customize your Windows 8.1 desktop and the following are the steps that you need to follow: 1: Select the "Change background" option from the

“Personalize” option which is located at the bottom of the “Start Screen”. 2: After that, you will find an option to “Set desktop picture”. Using this option, you can select an image or select an image from the folder which is provided to you. 3: Once the image or the image is selected, you will find a button to “Select an accent color”. Click on this button and a color palette will appear. Now, you can change the colors accordingly. 4: You can adjust the background color by clicking on the color palette which is located at the bottom of the “Taskbar” option. That’s all the things you can do with this awesome concept of Windows 8.1. You can select any desktop background image or you can select an image from the folder and you can also change the colors accordingly. We’ve always known that in order to stay competitive, companies need to outsource, whether it’s a phone call or a website. But what most of us didn’t know is that an entire office (or even half of one) can be shipped to another part
